

STOCK EXCHANGE RELEASE

29 January 2009

OEG opened its second casino in Slovakia

Slovak subsidiary of Olympic Entertainment Group (OEG) opened its new casino in the city of Trnava, investing EEK 30.0 million (EUR 1.9 million). It is the company's second casino that has been opened in the country after entering the Slovak market last summer and it is also the first and only casino in the whole city of Trnava.

Olympic Casino Trnava is located in the modern shopping centre Arkadia. The two-storey casino has approximately 650 square meters of floor space with six gaming tables and 29 latest slot machines including electronic roulette Alfa Street. Casino's tropical interior is complemented by intriguing decorations and a spacious bar with wide assortment.

OEG entered the Slovak market with its first nonstop casino in the Radisson SAS Carlton Hotel in the centre of Bratislava last June, investing EEK 74.0 million (EUR 4.7 million) at that time. Slovakia is the eighth country where OEG has started its casino operations, employing more than 100 people in the country today. OEG's expansion to the Slovak market is special also due to the fact that the activity license issued to the company is the first new gaming license that has been issued to casino operators in Slovakia during the last ten years.

Olympic Entertainment Group is one of the largest casino entertainment providers in the region, employing around 3800 people. OEG is a full member of the European Casino Association. Today the Group operates casinos in Estonia, Latvia, Lithuania, Belarus, Ukraine, Romania, Poland and Slovakia. Shares of OEG are traded on the main lists of the Tallinn Stock Exchange and the Warsaw Stock Exchange. All the subsidiaries of Olympic Entertainment Group are responsible casino operators who also inform their customers about the threats related to casino games.
