On KDM Shipping Public Limited

KDM Shipping is one of the leaders of the Ukrainian shipping industry, primarily involved in the niche segment of dry bulk river-sea freight in the Black, Azov and Mediterranean Sea regions.

The Group's cargo fleet consists of 8 river-sea, dry cargo vessels of total 25,206 DWT, which due to their shallow draft allow the access to major river and sea ports in Black and Azov Sea regions. The Group also provides passenger river transport services in the Kiev region (operating the fleet of 8 passenger river vessels), as well as ship repair services at its own shipyard located in the city of Kherson.

The Group has developed a vertically integrated business model. The Group's main activity of dry-bulk shipping is supported by its own ship repair yard, its own ship agency in selected ports as well as its own crewing department, allowing the Group to benefit from certain cost efficiencies and to sustain competitive advantages.

The international economic rating of "League of the Best" in 2011, based on official data of the SSCU, ranked the Group seventh in terms of activity in freight river transport, third in terms of activity in maritime freight transport and fourth in building and repairing of ships, placing the Company among the leaders in various segments of the shipping industry.

KDM Shipping has been listed on the Warsaw Stock Exchange since August 2012.
